

## PARISH PAPER - NOTES FOR APM

The parish paper continues to have a healthy bank balance after the generosity of the Parish Council and the success of the collection of donations in Payhembury Provisions. However, outgoings (ie printing) this year were higher than income and the committee is ever aware of the possibility of printing costs becoming more expensive. They would therefore like to thank the Parish Council for yet another generous donation promised for this year and to ask people to continue to give as and when they can.

Advertising is good with a waiting list of people wishing to advertise in the paper. It was agreed that since prices had been held last year, it would be acceptable to raise the rates from July 2013.

Babs Leach has decided to retire from the committee after many years of support and the committee would like to thank her for all her work as she moves on to new commitments.

Thanks are also due to all members of the committee who undertake the various tasks to ensure that the paper is produced with as much news as possible and on time. Huge thanks are particularly due to those who battle the terrible weather we have had of late to deliver the parish papers to the village.

### *Parish Paper Committee:*
